Wheeler & Wilson

Read ONE of Our Numerous HOME

Testimonials: We have been running Wheeler & Wilson's No. 6 Machine on ladies', misses' and children's shoe uppers during the last three years, and have fifty-six of them in constant use. We find them superior to any other Sewing Machine in the following particulars:

It will close seams in leather, without puckering, tighter and more rapidly than any machine of which we know, and that with heavier silk or linen thread and smaller needles.

It runs faster and makes more

regular and better stitching on fine

leather than any other machine ws They are very durable. We run them by power fully up to 700 stitches per minute. They are all in excellent condition, and they do

not cost us for each machine 250

per year for repairs. STRIBLEY & CO., Cincinnati, Ohio.
